

EDUCATION AND TRAINING

29/08/2020 – 10/07/2025 Manisa, Turkey
B.SC. IN COMPUTER ENGINEERING Manisa Celal Bayar University

-Relevant Coursework: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Software Engineering, Operating Systems, Computer Networks.
-Gained a strong theoretical foundation in computer science principles and applied them through comprehensive software development projects using Python, Java, and SQL.
Final grade 3.06/4.00 | Level in EQF EQF level 6 | Type of credits ECTS | Number of credits 240

01/10/2022 – 12/02/2023 Płock, Poland
ERASMUS+ EXCHANGE STUDENT Akademia Mazowiecka w Płocku

-Relevant Coursework: Database Systems, Computer Graphics, IT Security.
-Completed a semester abroad with high academic success, enhancing cross-cultural communication skills and adaptability in an international academic environment.
Final grade 3.90 / 4.00

WORK EXPERIENCE

JUNIOR SOFTWARE & AUTOMATION ENGINEER – BOSCH TÜRKIYE – 07/10/2024 – Current – BURSA, TURKEY

-Engineered a high-performance ETL pipeline (*Automated Data Change Detection*) using Python, Pandas, and Oracle SQL; implemented custom delta-analysis algorithms to detect data modifications and automate HTML-based reporting workflows.
-Developed a custom OCR solution (*AutoPDF Extractor*) to digitize analog production records, utilizing EasyOCR and multiprocessing for parallel image processing, which significantly optimized bulk file performance and data accuracy.
-Architected end-to-end RPA workflows using Microsoft Power Automate and JSON, orchestrating complex conditional logic to synchronize data between MS Forms and Excel databases, eliminating manual data entry errors.
-Designed and optimized system architectures using BPMN standards, translating business requirements into scalable automation scripts and identifying algorithmic bottlenecks to enhance execution logic.
-Performed R&D on NLP-driven Chatbot architectures and AI integration strategies to evaluate technical feasibility for internal knowledge-sharing systems.

INFORMATION TECHNOLOGY INTERN – FRANKE HOME SOLUTIONS – 24/07/2024 – 27/09/2024 – MANISA, TURKEY

-Managed network infrastructure and performed hardware maintenance, ensuring high system availability.
-Executed switch replacements and conducted network troubleshooting to support uninterrupted IT operations.

SAP INTERN – OZLER PLASTIK – 10/07/2023 – 15/09/2023 – ISTANBUL, TURKEY

-Assisted in ABAP programming tasks to support custom developments and debugging within the SAP environment.
-Supported data management and operational processes within the SAP MM (Materials Management) module.
-Gained practical experience in enterprise resource planning (ERP) system architecture and workflow logic.

CERTIFICATES

Software Development with Python (70 Hours) | BTK Academy (Information and Communication Technologies Authority)

-Successfully completed an intensive 70-hour face-to-face training program focusing on advanced Python concepts and software architecture.

Java Development Bootcamp | TUBITAK (Scientific and Technological Research Council of Turkey)

-Selected for the intensive software development bootcamp focusing on Java technologies and enterprise application logic.

PROJECTS

10/2024 – CURRENT
AI-Driven Research Platform | Python, NLP (NLTK/SpaCy), Selenium, Scikit-learn

- Developed an AI-driven decision support system for TUSAS (Turkish Aerospace Industries) to evaluate emerging aerospace technologies.
- Implemented NLP and web scraping to analyze academic databases, aligning trends with industry needs.
- Built an interactive dashboard to visualize data, aiding strategic decision-making for future R&D innovations.
- Awarded a research grant by TUBITAK (Scientific and Technological Research Council of Turkey) for the project's innovative scope; academic studies and development are currently ongoing.

01/2026 – CURRENT
Network Traffic Anomaly Detection System | Python, Scapy, Scikit-learn, TCP/IP

- Developed a real-time network monitoring tool using Python and Scapy to capture and analyze TCP/IP packet headers.
- Implemented an unsupervised machine learning model (Isolation Forest) to detect traffic anomalies and potential security threats with 91% accuracy.
- Optimized data processing pipelines to handle high-throughput network traffic with minimal latency, ensuring continuous monitoring without system overhead.

Esports Competitive Match Telemetry Analyzer | Python, Pandas, awpy, Matplotlib

- Developed a comprehensive data analysis tool to parse binary match recordings (.dem files) from Counter-Strike 2, extracting high-frequency telemetry data.
- Engineered spatial visualization algorithms to map 3D in-game player coordinates onto 2D map overviews, generating heatmaps for player positioning.
- Designed an interactive dashboard to correlate specific utility usage patterns (e.g., smoke grenades) with round win rates, providing statistically significant strategic insights.

10/2021 – 06/2022
Kizagan Falcon (UAV Simulation) | Python, SimPy, Matplotlib

- Finalist in the Teknofest International UAV Competition; designed a drone solution for border security scenarios.
- Simulated sensor data flow, system behavior, and operational logic using SimPy to validate the algorithm before physical deployment.

SKILLS

Languages:

Python (Advanced) | Java | C# | SQL | Web Technologies: HTML5, CSS3

Libraries & Frameworks:

Scikit-learn | Pandas | NumPy | OpenCV | Scapy | Matplotlib | Flask | Selenium | EasyOCR

LANGUAGE SKILLS

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH (PEARSON GOLDEN LEVEL)	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

VOLUNTEERING

Project Support Member in Stream It Up

- Contributed to a nationwide STEM initiative hosting high-achieving high school students from all 81 Turkish provinces.
- Mentored participants during engineering workshops, providing career guidance and sharing personal academic experiences to inspire future engineers.

HOBBIES AND INTERESTS

LEGO Technic, Rubik's Cube
